

Exceed 3D™ 2006

Exceed 3D adds the advanced graphical computing power of OpenGL API — the industry standard three dimensional visual interface — to Exceed®. By leveraging the accelerated power of Windows-based PCs, Exceed 3D distributes high-end engineering and finite analysis applications based on OpenGL API to lower cost desktops, thereby reducing ownership and cost per seat.

Key Features

- > Add-on Product to Exceed® 2006
- > Support for X11R6.8
- > GLX 1.4 OpenGL
- > 3D Overlay support
- > Multi-language support
- > Direct Rendering support
- > Included XDK development package
- > Support OpenGL 1.4 extensions in device drivers

System Requirements

Operating Systems

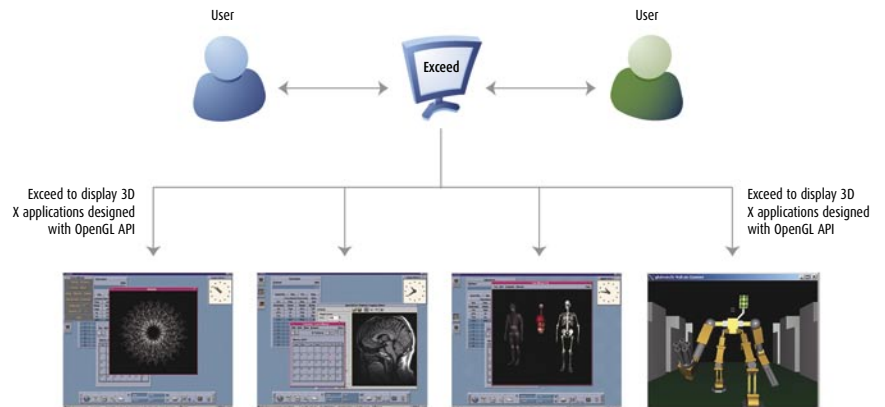

- > Windows® 2000/XP
- > Windows XP Tablet PC Edition
- > Windows Server™ 2003
- > Windows Terminal Server Edition
- > Citrix® Presentation Server™ for Windows platforms
- > Windows XP Professional x64 Edition
- > Windows Server 2003 x64 Edition

System Requirements

- > Minimum memory as prescribed by Operating System
- > Hard Drive space for typical installation: 18 MB
- > Exceed must be installed on the system
- > Designed for Microsoft® Windows XP

Take Advantage of Your PC Desktop

Not all X applications are created equal. Some X applications require more than just a simple X Server to display — they need an X Server with 3D capabilities! CAD/CAM/CAE, medical and seismic applications are just some of the many types of applications that can take advantage of the OpenGL API support provided by Exceed 3D™ and display complicated three dimensional drawings on users PC desktops. Exceed 3D is an add-on product for Exceed®.
